

bajaj insurance
(enterprise organization)
Bajaj insurance offers insurance services to their customers across India.

providing the insurance services to customers manually is an tedious job and has lot of challenges:

1. The speed at which business services are conducted will be very slow
2. The accuracy in offering the services is not high
3. reachability in providing the services to the customers will be limited to geographies under which the physically the business is operating
4. eliminate the fraud is difficult.

1. Infrastructure
 - 1.1 Computers
 - 1.2 Networks
 - 1.3 Networking devices (Firewalls/Gatways etc)
2. Platform Software
Java/.net/Php/Phthon/Scala etc
